

BATTLE HOUSE

MISSION BASED LASER COMBAT

ELITE TACTICS TRAINING

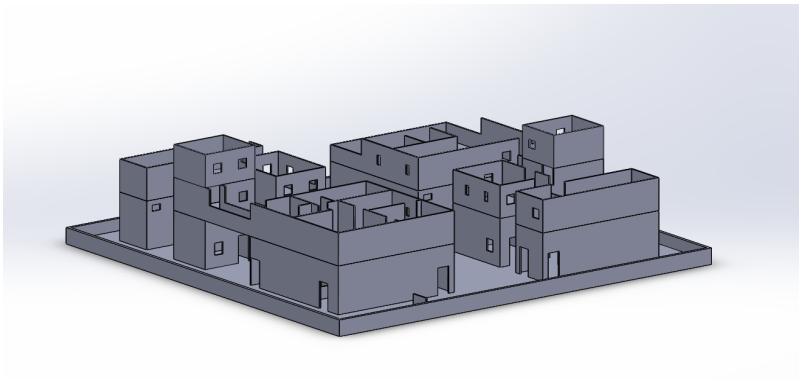

Battle House offers its facility, equipment and crew for team building and training sessions at many levels. With a facility like no other, featuring (8) 2-story buildings, over 20 individual rooms, tramways, alleys, abandoned vehicles, a realistic armory, conference rooms and a 2nd floor lounge/viewing area: Battle House can provide your group a great team training environment.

Military Grade Tactical Instructors are available to offer hands-on training emphasizing the importance of communication, voice commands, hand signals, combat stances, individual and squad movement, room clearing and advancing skills that are immediately incorporated into hands on practice and our mission scenarios.

Our equipment is realistic, state of the art, fast and accurate.

The design of our complex was specifically modeled to offer a challenging, multi-dimensional tactical environment. This is a city within a massive, climate controlled building.

Please contact us to schedule your next teambuilding event.
